PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience in scalable web/mobile apps using React.js, React Native, Angular, JavaScript, and TypeScript. Skilled in SPA, PWA, component-based architecture, responsive UI, accessibility (WCAG), Redux, Context API, and REST APIs. Reduced dev time by 50% and improved sales by 40-50% through optimized UI workflows, reusable components, and Agile delivery across finance, insurance, and marketing domains.

SKILLS

JavaScript	TypeScript	React.JS
Angular	Redux	React native
Context API	Restful API	HTML5
Bootstrap	PrimeNG	Tailwind CSS
CSS3	SCSS	Firebase
Firestore	GIT & GITEA	Jira & Taiga
CICD	Vercel	SEO
Leadership	Accessibility	Agile
Scalable architecture	Communication	Collaboration

EXPERIENCE

SOFTWARE DEVELOPER, IKIONE SYS PVT LTD, PUNE. **March 2022 - PRESENT**

- Designed, constructed, and maintained scalable, production-ready web and mobile applications using React Native, Angular, JavaScript, and TypeScript in Agile environments — improving performance and code reusability by 40% across projects.
- Led client-focused web platforms using React.js, Firebase, Redux, and Tailwind CSS with responsive, mobile-first design and real-time features.
- OP & LFANT** (Insurance Portals): Integrated Modular architecture, metadata-driven forms with role-based access (RBAC), REST API integration, and admin dashboards using Angular, ABP Framework, and PrimeNG — cutting dev time by 50%.
- WMStandard** (Finance App): Engineered a secure, cross-platform trading app using React Native and .NET backend with real-time stock updates and persistent local storage, resulting in a 30% increase in daily active users and improved trading response time.
- PortfolioX** (Wealth Mgmt. Admin Panel): Led frontend in Angular, streamlining UI workflows and increasing admin efficiency by 35%.
- SBM Mobile App**: Migrated legacy Ionic codebase to React Native, improving load time by 40% and overall UX.

- **Reusable Component Library:** Engineered modular, cross-platform UI components (React Native + Angular) for internal use, reducing redundancy and improving UI consistency across 5+ projects.
 - **Team & UI Management:** Led and coordinated UI efforts within a cross-functional Agile team, improving sprint delivery rate by 25% using effective backlog grooming and team communication.
 - **Lyricalwings:** Built a dual-portal publishing platform using React, Firebase, Redux, with role-based access, moderation tools, and real-time analytics; achieved 15% improvement in user retention and optimized UI/UX for mobile/tablet screens.
 - **HR Consultancy Platform:** Delivered a working MVP for a B2B HR listing service with category filtering, lead tracking, and Firebase backend. Currently aligned with client to extend features for production use.
 - **AdSmart Marketing Solution:** Developed a data-driven campaign dashboard with advanced filtering, role-based UI segmentation, and SEO-friendly architecture; delivered a successful stakeholder demo and currently refining for production deployment.
 - Focused on scalable frontend architecture, WCAG accessibility, and CI/CD best practices using Git-based workflows and Firebase hosting.
 - Consistently recognized for rapid prototyping, collaborative delivery, and problem-solving in fast-paced Agile environments.
-

EDUCATION

Master in computer application (MCA) - IMCC, Pune.

CGPA: 8.84 | March 2021 - Oct 2022

Bachelor's in computer application (BCA) - VCK, Kolhapur.

CGPA: 6.34 | March 2027 - May 2020

ACHIEVEMENTS

- **Reduced development time by 50%** at IKIONE Systems by building and implementing a reusable component library used across multiple projects.
- **Boosted client engagement and sales by 40%** through performance-optimized UI and dashboard systems.
- Delivered functional prototypes within 24–48 hours of requirement finalization, enabling faster feedback loops; collaborated with cross-functional teams to debug and deploy features with minimal rework in Agile sprints.
